2. Claims 1-11 are allowed.

3. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is a pressure limiting valve having a valve cone supported with radial play in a center-mounted armature of a proportional solenoid characterized by centered cardanic axial support of the valve cone on the armature and by a guide means secured to the housing and located between the valve seat and the armature and that is formed with less play than the armature side radial play.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kumar and Hoffman disclose center mounted valves in armatures.
